

TABLE PURSUANT TO CT6.41# - SPECIFIC REQUIREMENTS (01/2000)

FELLING METHODSPAYMENT UNITS

Trees should be felled in such a manner as to prevent damage to residual trees.

All

Handfelling is required within all riparian buffers as identified on the Sale Area Map. All trees within riparian buffers shall be felled towards the road when feasible. Tops of trees should be left intact within the riparian buffer when practicable.

1,7,8,10,11,12,
14,18,20,21,22,
23,25,26,27,30,
31,33,35,36,37

Handfelling will be required on slopes greater than 30% unless trees can be reached from the road by a mechanical feller.

All

FELLING EQUIPMENTPAYMENT UNITS

Equipment is referenced in CT6.42#
